Peek at the Week

Friday 22nd June

We have had a very busy week in Waveney class. Our theme book this week has been *Yucky Worms* by Vivian French. We have been busy making our names with playdough, wool and string worms. Nursery have been working on developing their pincer grip using spring chopsticks to pick up woollen worms. In maths, Reception have been working on counting coins, including money games on the interactive whiteboard and we cut worms to halve and double amounts. We put days of the week in order using Mr Worm's week. We also wrote sums to go with a counting along a numbered worm game. The nursery children put counters and fingerprints on to number shaped worms and used prepositions to place worms in/on/under/beside/ in front/behind a flowerpot. Reception wrote facts about worms and made wormy books. Outside we planted some seeds and dug for worms. We talked about caring for plants and identified parts of a plant, cutting up flowers and looking at them through magnifying glasses to investigate them. We Painted flowers and made garden scenes in trays. We had fun making paintings with string. Nursery did lots of threading with pasta tubes, cotton reels and Cheerios to make long worms. Some of the children challenged themselves to make a playdough worm longer than the longest actual worm in the world. Thank you, Oscar, for bringing in a wormery - we have enjoyed watching the worms!

★ THIS WEEK'S ★

READING STARS

RAINBOW

Korbyn Rampley

This week's stars of the week are Oliver Oldridge and Kayden Berry.

Oliver has worked really hard and has been exceptionally kind and helpful. Kayden has been doing good turn taking and sharing. Well done, Oliver and Kayden, we hope you have fun with Star the Pony and Sparkle the Bear.

HOME LEARNING

NURSERY Cut an apple in half and print an apple shape with it. Make a wiggly worm coming out of it and stick some pips inside. Can you count the pips?

RECEPTION Use natural materials to make a garden scene on a plate or lid. Bring it in so that you can talk about how you made it, what you chose to use and why.

Have a lovely weekend! The Early Years Team
