

Peek at the Week

Friday 10th June

We have had a really busy week in Waveney Class. Our topic this half term is under the sea and our theme book for this week has been *The Rainbow Fish* by Marcus Pfister. We have written sentences about the story and made up our own rainbow creatures story. Some of the writing was amazing - one child even wrote two pages! In Maths Reception have been making up addition stories about fish and have written the number stories. They have also been counting in twos and tens using coins. Nursery have created rainbow fish using shiny objects and

investigated sparkly objects using torches in the dark den. We have looked at shimmery shiny objects and talked about their properties. We talked about who they would give their shiny scale to and the reason why. We have done some movement to music related to sea creatures, pretending to be octopuses, crabs and shoals of fish. The children are keen to turn the role play area into an aquarium, so have been creating fish pictures using CDs, card, sequins and glitter.

WELL DONE!

★ Waveney Class's Star of the Week is **Caleb Venton** who has made a fabulous Superworm story box for his home learning task and has been problem solving during building tasks. Well done, Caleb, we hope you have fun with Star the Pony!

HOME LEARNING!

- Nursery** – Make a collection of boxes and containers. Sort them into groups of ones that can roll and ones that can slide. Can you find out the names of some of the shapes?
- Reception** – Work on number and letter formation. Make sure you start at the correct place! Sheets attached to remind the children about how to form letters and numbers correctly, but they can be written with any media on various surfaces – be creative!

Have a super weekend! The Early Years Team
