

# Peek at the Week

Friday 13<sup>th</sup> March

What a busy week in Waveney class. We have continued our learning about growing, focussing on stories with beanstalks – Jack and the Beanstalk and Jim and the Beanstalk. We wrote stories using the opener Once Upon a Time, sequencing events and using phonics skills. We were very excited to receive a giant letter from the giant, asking us to tell Jack to stop stealing from him. We made giant coins and waited for the giant to come and collect them. He did come and left some muddy handprints! When we read about Jim and the Beanstalk we found lots of

differences in this story. We talked about what might happen after the story ended and we made wig hats. We scooped up two coloured beans and wrote the number bond. We looked at different kinds of beans and wrote recipes for bean stew.

In phonics we recapped Phase 3 sounds **ng, ai ee igh** in a variety of ways. We segmented words to read them, added sound buttons, and wrote them, practising the correct letter formation. Then we wrote sentences containing the words.

In Maths we explored number 19, counting forwards and backwards, We worked on problem solving and addition and subtraction stories using concrete resources and pictorial representation.

We talked about personal information in ICT – what it's okay to share and who with.

The Nursery children listened to the story of Jack and the Beanstalk and joined in with the repeated refrain Fe Fi Fo Fum! They worked on counting steps, jumps and Claps and listened to a rhyming book and talked about words that rhyme. We put numbers on leaves and added them to beanstalks.

## ★ THIS WEEK'S ★

### READING STARS

**Silver**

Amelia Oldridge

**Platinum**

Rory Venton

Harry Wiles

**Diamond**

Arthur Eaves

**REQUEST** Next week we will be talking about vegetables. Please can your child bring in three different vegetables for our activities.

**PLEASE NOTE** We've received a very useful booklet on healthy snacks for under 5s (but is relevant for older children). Please follow the link below to download a PDF of the booklet or to order a copy. It includes information about healthy foods and drinks (e.g. plain milk and water are the only drinks that do not damage children's teeth) and there are lots of recipe ideas for healthy snacks. Perhaps you could try one new idea every week.

**Emily Sheldrake** is our star of the week this week. She has worked really hard on her story and it was fantastic!. Well done Emily, we hope you have fun with Star the Pony. Sparkle the Bear is on holiday with Dexter!

**Home Learning** - We'd love to see all your activities on Tapestry.

**Nursery** Make a model using vegetables. Mark make a list of what you used. If you know sounds, have a go at writing the words.

**Reception** You need a box of sugar cubes (each weighs 5grams). Find foods and drinks containing sugar and count how many sugar cubes are in them.

**Year 1** Design a machine to warn the giant that Jack is coming.

Have a lovely weekend, Waveney Class Team
