

History Project:

In History we would have been finding out about famous explorers. The half-term project work is to find out about an explorer of your choice. You can present your information how you like, for example; a PowerPoint presentation, a colourful poster, a booklet or a model with a fact sheet attached.

Projects should answer 6 key questions:

- What do explorers do? *What did the explorer you're focusing on do?*
- What did the explorer you're focusing on take with them?
- How did they find their way? Did they use a map? Compass?
- What materials are good to make an explorers mode of transport? *What mode of transport did your explorer use?*
- What materials are good to make an explorers clothing? *Do you know what your explorers clothing was made from?*
- How did they plan their expedition? *Would you have planned yours in the same way?*

To spread this project out over the half-term, research one question a week in the 'history slot' on your timetable.
