

Peek at the Week

Friday 27th January

What a busy week in Waveney Class! This week we have read 'How to Catch a Star,' by Oliver Jeffers. We had a lot of fun talking about how we might catch a star! We have been inspired by the story to create our own star pictures and scenes from the story.

In Maths Reception have been learning about 13. We have counted to thirteen, found thirteen on a number line and counted one more and less. We have added together two different groups of astronauts and used a number sentence to write the addition.

In Phase 3 Phonics, we have been learning the sounds of sh ch th ng and reading and writing words using the sounds we have learnt so far.

The Nursery children this week have enjoyed playing lots of games, like 'springy spiders' and the dinosaur and pirate games. We have talked about where we would go in our rockets and used paint to print pictures of rockets. We enjoyed sharing two books brought in from home to share: 'Poo in the Zoo' and 'The Cave.'

Well done to Logan, who is this week's star! You have worked very hard on lots of activities. Well done, Logan!

Have a lovely weekend! The Early Years Team

HOME LEARNING

This weekend is the Big Garden Birdwatch – how many different birds can you see in your garden?

Nursery – draw a picture of a bird you see in your garden.

Reception – draw the different birds you see in your garden. Can you write the number of each bird that you see?
